PolyMem®

Finger/Toe Dressings

Help improve recovery after injury!
THE IDEAL CHOICE FOR HEALING:

- Matricectomies
- Lacerations
- Abrasions
- Strains
- Sprains

...and many other injuries throughout the body. When applied to open wounds the dressings continuously cleanse, fill, absorb and moisten wounds. The dressings help relieve both persistent and procedure related pain associated with the injury throughout the healing process.

PolyMem Finger/Toe dressings help reduce edema, bruising, pain and inflammation when applied to open or closed injuries. When applied to open wounds the dressings continuously cleanse, fill, absorb and moisten wounds. The dressings help relieve both persistent and procedure related pain associated with the injury throughout the healing process.

**THE IDEAL CHOICE FOR MANAGING:**

- Sprains
- Strains
- Contusions
- Abrasions
- Lacerations
- Burns
- Ulcers
- Matricectomies

Made to roll comfortably onto a finger or toe right out of the package.

Made to roll comfortably onto a finger or toe right out of the package.

The dressings should fit securely on finger or toe. This is an overview. Please see package insert for complete instructions.

PolyMem wound care dressings are not made with natural rubber latex.
